

REPORT TO MEMBERS OF THE FACULTY SENATE
March 31, 1952

ADDITIONAL CHANGES IN REGULAR SCHEDULE OF ANNOUNCEMENTS FOR 1951-52, 1952-53
AS APPROVED BY THE ADVISORY COUNCIL (March, 1952):

College of Liberal Arts

Department of Anthropology

- 206a,b Methods in Ethnology and Social Anthropology (3-3) I Yr. Spicer
Field techniques; methods of analysis and interpretation of data in ethnology and social anthropology. P. 17Ca, 17Cb. May be repeated for credit with permission of instructor.
- 207a,b Field Methods in Archaeology (2-2) 1952-53 Haury
Field and laboratory techniques in archaeology. P. 115a-115b.

In connection with the adoption of the above new courses, the following changes were authorized:

- 141 Deleted from the curriculum.
145a,b Changed from an alternate year to an annual offering.
222 Changed from an alternate to an annual offering.
205a,b Deleted from the curriculum.

Department of Chemistry

- 210 Spectrochemical Analysis (1) II 1951-52 Sedley
The theory and technique of Spectrography as applied to Chemistry. P., Chem. 184a. Fee, \$4.
- 296 Electrochemistry (3) I 1952-53 Taylor
Theory of voltaic and electrolytic cells. The Debye-Huckel-Onsager theory of strong electrolytes. Offered in 1952-53 and alternate years. 3R, P. 205b.
- 108 Inorganic Preparations (3) II G 1951-52 Perkins
A laboratory course designed to acquaint the student with fundamental preparations and reactions of inorganic chemistry. 1R, 6L. P. 4. Offered in 1951-52 and alternate years. Fee \$8.

Department of Philosophy and Psychology

- 202 Diagnostic Techniques in Psychology (3) II 1952-53 Barnes
A study of clinical procedures in the diagnosis and treatment of behavior problems and personality disorders. P., Psychology 201 or concurrent registration.

Department of Physics

11C Acoustics (3) I G 1952-53

Deleted from the curriculum. (This action was taken subject to the submission of the request through the usual channels on Form B).

The following course, which was given formal approval last spring and then withdrawn by administrative action, was reinstated as a new course at this time:

15C Advanced Laboratory (1) I, II G 1952-53 Warner

Experiments in atomic and nuclear physics. May be repeated for credit. 3L. P., open only to seniors majoring in Physics and graduate students. P. 10b and Math. 95b. Fee \$5.

Department of Zoology

141 Zoogeography (2) II G 1952-53

Principles and concepts concerning the great regional patterns of distribution of the animals of the world, both past and present. 2R, P. 4a and junior standing.

The following changes were approved:

Page 271 The teaching minor must include 4a-4b, 30 or 44, and 134 or 135 to total at least 16 units. (To correct an error).

Zoo. 30 Biology of the Vertebrates. Change to an alternate year course listed for 1951-52. (Not offered in 1952-53).

Zoo. 45 Comparative Anatomy. (4) I Chiasson. Change to first semester offering only.

Page 272 Zoology 115. Evolution. Change the prerequisite to read, "P. 112 or 114 and junior standing in zoology, anthropology, botany, geology or sociology." (Students who have completed Zoology 114 have sufficient knowledge of the principles of heredity to meet the requirements of Zoology 115).

Page 273 Zoology 155. Wildlife Management Techniques (4) II G

Change the number of this course to 165 and change the value to 4 units (from 2 units) and the semester to II. Change the recitations to "4 recitations and an occasional field trip." Change the prerequisite to read "P. 160", and change the fee from \$3 to \$6.

160 Wildlife Management (4) I G

Change to a first semester only offering and change prerequisites to read: "P. 10, 133, 134, 135, 138."

Page 148 Make corrections in Wildlife curriculum in accordance with changes in courses 155 (165) and 160.

College of Education

Department of Physical Education for Women

82 Camp Leadership (2) II

Changed from an alternate year to an annual course. Offered in 1952-53.

Department of Physical Education for Men

71 School and Community Health (3) I, II Ruff

Relationship of the teacher to health problems in the school and to community health agencies. Meets state school law certification requirements. Sophomore standing. Fee, \$1.50.

General (Inter-Departmental) Courses

Health Education Change the title and descriptive paragraph to read:

Personal Health (2-2) Year Simley-Staff

Personal health problems; their cause and prevention. Prerequisite, sophomore standing. Fee \$1.50 each semester.

NOTE: Inasmuch as the new course in Physical Education for Men, "School and Community Health", will cover the state school law requirement in Health Education for the certification of public school teachers, the committee administering the present Health Education course felt that it should be changed in title and content to emphasize personal health. It was felt desirable to continue such a course because: it is the only one in the University specifically dealing with numerous personal health problems; it will become one of the required courses for the Health Education minor to be proposed next year; because the lecturer in the course has had three years experience and now has an extensive and adequate syllabus to work from; and because there is a shortage of two-unit courses.

Orientation (1) I (Required of all freshmen women).

Deleted from the curriculum.

NOTE: With the deletion of this required course, it will be necessary to revise the summaries of degree requirements in the various curricula so that the total number of units required for the bachelor's degree in the College of Liberal Arts would be reduced from 125 to 124 units.

All of the above changes are effective in the fall of 1952.

Proceedings of the Faculty Senate
Monday, April 7, 1952

ARIZONA COLLEGE ASSOCIATION, ELECTION OF TWO DELEGATES TO: The President announced that Dr. Solve had been elected President of the Arizona College Association. The Senate elected Dean Roy and Dr. Nugent as official delegates to represent the University at Association meetings during the next year. Dr. Solve announced that the next meeting of the Association will be held on the campus of the University.

COMMENCEMENT PLANS, REPORT RE: Professor Picard, Chairman of the Special Occasions Committee, reported that it was planned at present to hold the 1952 Commencement in the south end of the Stadium as had been done in 1951 with the distribution of diplomas and formation of the academic procession taking place on the central practice football field. It was planned that the stage lighting would be improved this year as would be the efficiency of the public address system. Some Senate members suggested that the seating arrangement be altered so that it would not be necessary to place the faculty in the Stadium but rather by some means seat them on the field. Professor Picard stated that his Committee would give this matter further study.

COMMITTEE ON RESEARCH, REPORT OF: Dean Patrick gave a report to the Senate of the recent study made by the University Committee on Research concerning the various research projects at present being conducted on the campus. All of these are sponsored by agencies outside of the University. He explained that this year over 30 projects are being conducted at a cost of \$159,392.

David L. Windsor
Secretary Pro Tem
