

Form 6.
Revised April, 1922.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS.

U. S. Department of Agriculture.
State Agricultural College, and
County Extension Organization
Cooperating.

States Relations Service
Office of Extension Work
Washington, D. C.

ANNUAL REPORT OF COUNTY AGRICULTURAL AGENT.
(Due November 30, 1922).

State of ALABAMA County of YAVALAPAI

CHAS. U. FICHEL County Agricultural Agent.

From JANUARY 1, 1921 to NOVEMBER 30, 1922.

If agent has not been employed entire year, indicate exact period. Agents resigning during year should make out this report before quitting the service.

One of the greatest, if not the greatest problem in the County is the improvement of the quality of the range cattle.

Many bulls the type of No. 1 are yet in use; the ultimate object of the work in Range Cattle Improvement is to have all of the range bulls in the County closely approaching the type shown in No. 2

(For map of State showing location of county, photograph illustrating some phase of county agent work, or brief summary of outstanding features of the work).

Chas. U. Fichel
State County Agent Leader

Suggestions Relative to the Preparation of the County Agricultural Agent's Annual Report.

The annual report is a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the activities of the county agricultural agent for the year. The making of such a report is of primary value to the county agricultural agent and the county extension organization.

The narrative report should be a statement in orderly fashion, and under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relating to each project, the results reported in the statistical summary for the project should be analyzed, conclusion drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The statistical summary will grow naturally out of the field and office records.

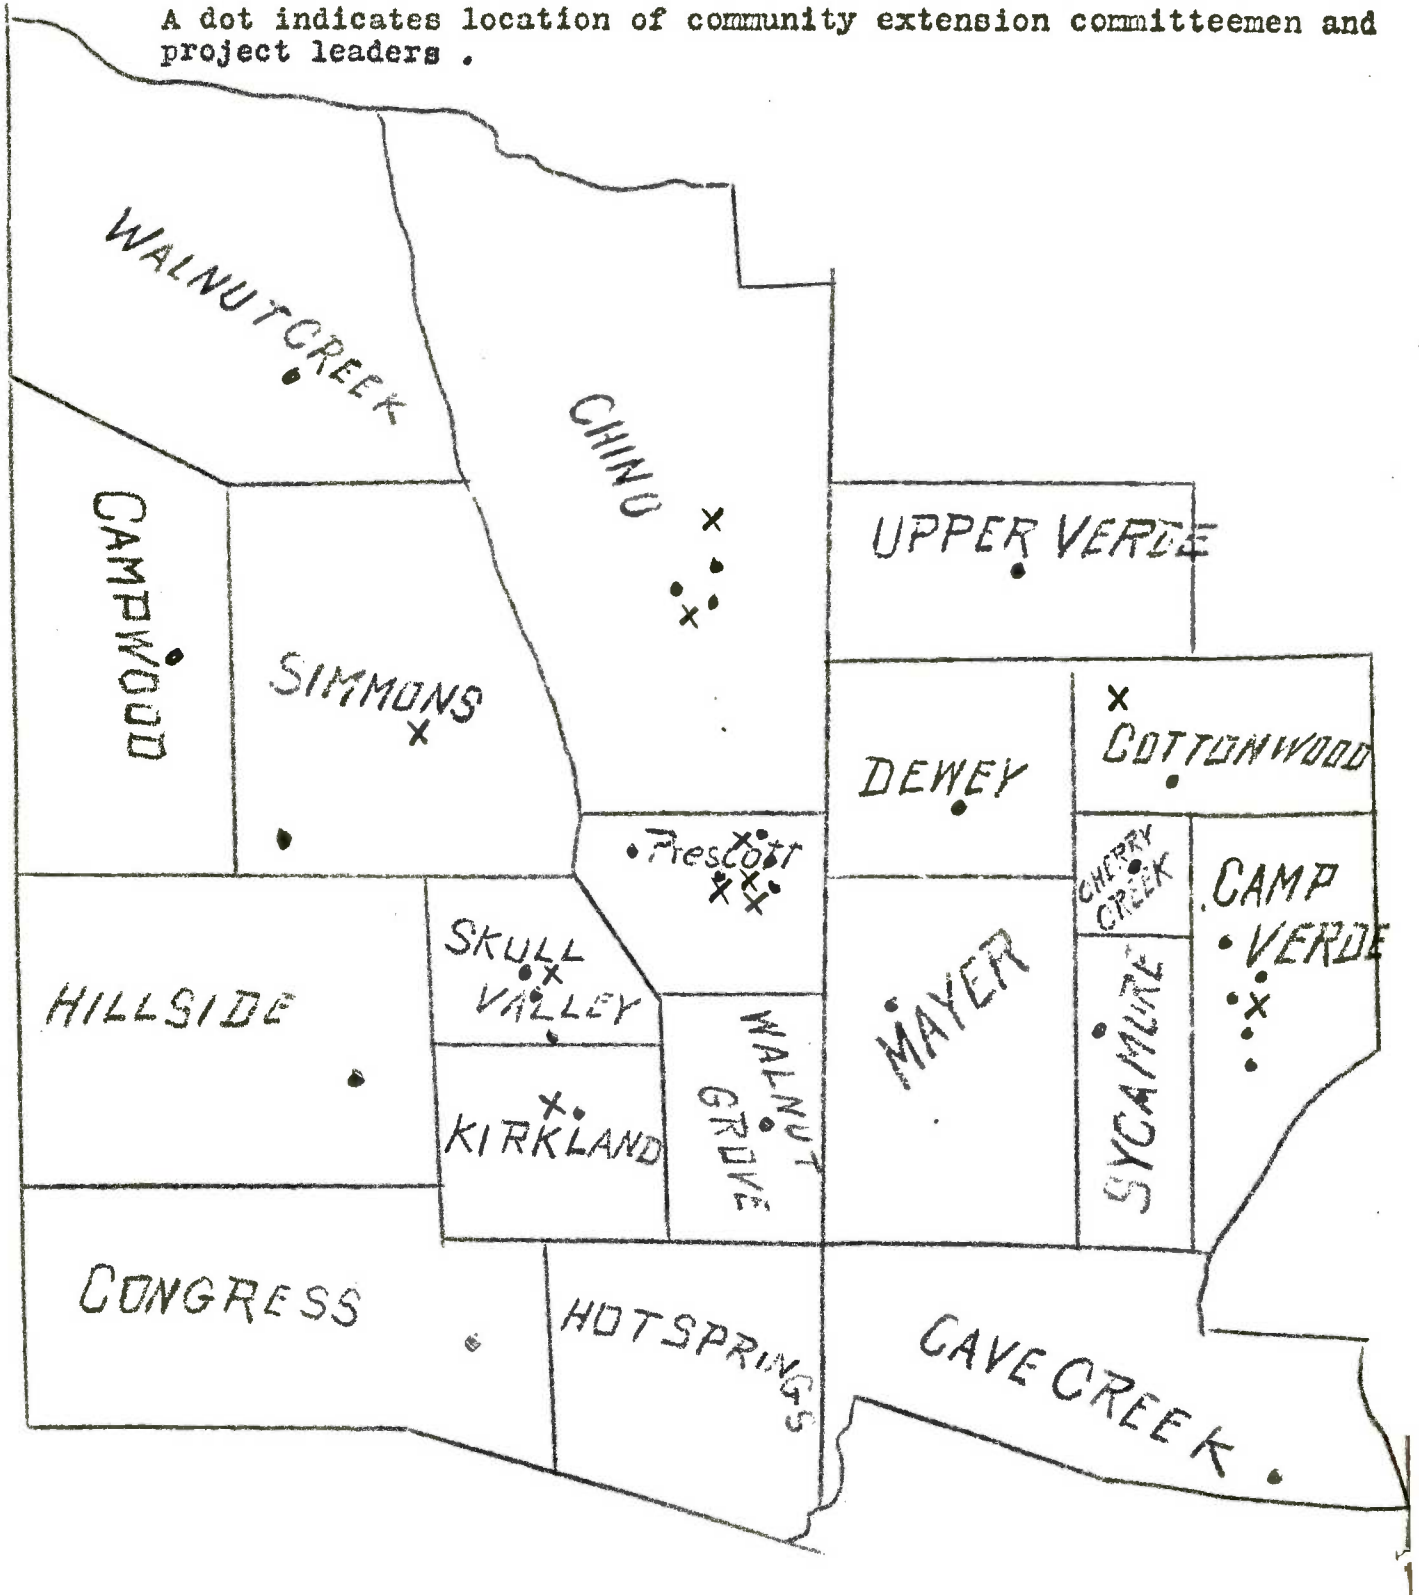

The following plan is suggestive of how the report may be clearly and systematically outlined:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization - distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work - methods employed and results achieved.
 - (1) Factors considered in determining program of work.
 - (2) Project activities and results -
 - (a) In the development of the county extension committees during the year.
 - (b) In soil improvement.
 - (c) In crop production.
 - (d) In live stock production.
 - (e) In farm economics.
 - (f) In marketing (buying and selling).
 - (g) In farm home betterment.
 - (h) In boys' and girls' clubs.
 - (i) In other project activities.
 - (3) Character and scope of office and field service.
 - (4) Analysis and interpretation of tabular summaries.

X indicates location of county extension committeemen

A dot indicates location of community extension committeemen and project leaders .

- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only placed at the beginning or end of the narrative report.

Statistical Summary.

To supplement the narrative part of the report, and in order that comparable State and National summaries can be made, it is necessary that each agent include a statistical summary of the work in his county. The following form has been prepared to insure uniformity in reporting. In addition to the questions asked under each subdivision of the report, space is provided for the State to add other questions of State-wide importance. Additional room is also provided for each county agent to add other important statistical information not covered in the series of National and State questions. For the sake of clearness the questions are arranged in the same order as suggested for the narrative.

Extension Organization Map.

On this page draw or attach a map of your county, showing boundaries of communities or other local units organized for extension work.

Locate county extension committeemen with an X.

Locate community extension committeemen or project leaders with a dot.

11. D.W.Wingfield	Sunflowers	Camp Verde
12. Geo W.Whitaker	Sudan Grass	Huron
13. T.J.Cavness	Range Imp,range cattle management	Cave Creek
14. John Bianconi	Orchard	Prescott
15. J.V.Dickson	Blackleg control	Skull Valley
16. A.A.Johns	Sheep (general)	Prescott
17. T.L.Morris	Goats(gen'l) feeding	Kirkland
18. W.M.Wood	Poultry	Skull Valley
19.F.L.Campbell	Hogs	Prescott
20. R.F.Cooper	Rodent control	Jerome Junction
21. T.F.Wilcox	Bees	Jerome Junction
22. Wm. Roberts	Insect Pest control	Fair Oaks
23. L.J.Haselfelt	Plant disease cont'l	Kirkland

County Extension Organization.

1. County executive committee and county project leaders serving during 1922 (list below):

Officers and county project leaders.	Name of project or activity of which leader has charge.	Address
1 <u>L.L. Bates</u> Pres.	<u>Silage corn, silos, alfalfa</u> <u>feeding of cattle, horses</u>	<u>Prescott</u>
2 <u>D.H. Biles</u> V.P.		<u>Prescott</u>
3 <u>Paul E. Lodge</u> Sec.		<u>Prescott</u>
4 <u>G.W. Hankin</u> Treas.	<u>Dairy (General)</u>	<u>Jerome Junction</u>
5 <u>C.H. Harbeson</u>	<u>Seed corn selection</u>	<u>Camp Verde</u>
6 <u>H.C. Anderson</u>	<u>Grain Sorghums</u>	<u>Jerome Junction</u>
7 <u>E.V. Monroe</u>	<u>Wheat, wheat smut control</u> <u>barley</u>	<u>Camp Verde</u>
8 <u>C.E. Lee</u>	<u>Potatoes</u>	<u>Prescott</u>
9 <u>A.L. Karfel</u>	<u>Oats</u>	<u>Camp Verde</u>
10 <u>D.W. Stewart</u>	<u>Soil Improvement</u>	<u>Cornville</u>

2. Does the extension organization provide for
 (a) Home economics work? Yes
 (b) Boys' and girls' club work? Yes
3. Does the county extension service publish an extension news or similar publication? No.
4. Extent of community organization:
 (a) Number of communities or local units in the county recognized by the county extension service 10
 (b) Number of communities now having community committees 18
 (c) Total number of community committeemen or community project leaders 22

5. Meetings relating to extension organization and attendance:

	Number.	Total attendance
(a) County extension committee meetings (County executive committee) - - - - -	<u>6</u>	<u>30</u>
(b) Community committee meetings - - - - -	<u>37</u>	<u>146</u>
(c) County project committee meetings - - - - -	<u> </u>	<u> </u>
Total - - - - -	<u>5</u>	<u> </u>
(d) Number of above meetings not attended by agents	<u>43</u>	<u> </u>

List below any additional work relative to county extension organization not covered by above questions:

While the Farm Bureau is organization legally recognized by the State Extension Service, the agent also works with the Ariz. Cattle Growers Association, the Ariz. Wool Growers Assn., Yavapai Co. Cattle Growers Assn., Yavapai Co. Mohair Growers Assn. and six local cattle growers associations. Yavapai County also has a County Chamber of Commerce through which the agent works.

Soil-Improvement Projects.

In answering the following questions, report only results of the activities of the county agricultural agent that are supported by records. Answer every question. Use figures where work done can be supported by records for current year. Use "Unf." (unfinished) where work is unfinished or no record available; "N.A." (not applicable) where question does not apply; "0" (zero) where no work has been done.

Drainage and Irrigation.

	Number.
6. Drainage systems planned and adopted - - - - -	<u> </u>
7. Acres involved in Question 6 - - - - -	<u> </u>
8. Irrigation systems planned and adopted - - - - -	<u>5</u>
9. Acres involved in Question 8 - - - - -	<u>60</u>

Fertility.

10. Farmers consulting agent regarding use of fertilizers - - - - -	<u>33</u>
11. Tons of commercial fertilizer included in Question 10 - - - - -	<u> </u>
12. Acres of clover or other legumes turned under for soil improvement	<u>80</u>
13. Farms on which soil was tested for <u>acidity alkali</u> - - - - -	<u>4</u>

Number.

14. Farms on which lime or limestone was used - - - - -
15. Tons of lime or limestone included in Question 14 - - - - -
16. List below the organizations or associations relating to soils that the agent assisted in forming in 1922:

Type of organization	Organized in 1922.	
	Number.	Members.
Drainage associations or districts - - - - -		

Soil-Improvement Demonstrations*- 1922.

Kind of demonstrations	Number		Meetings at demonstrations		Units in demonstrations	Increase per acre or other unit	Resultant profit due to increase
	Started	Completed	Number	Total attendance			
Drainage							
Fertilizers							
Lime and limestone							
List others							
Sweet clover in orchards	May 1921	Unf.	2	40			
Old alfalfa land for potatoes	Apr 1922	oct 15, 22	2	50			
	2	2	4	90			

* A demonstration is an effort to show by example the practical application of an established fact. Demonstrations may be of methods or results.
106-SRS

Crop Projects.

In answering the following questions, report only results of the activities of the county agricultural agent that are supported by records. Answer every question. Use figures where work done can be supported by records for current year. Use "Unf." (unfinished) where work is unfinished or no record available; "N.A." (not applicable) where question does not apply; "0" (zero) where no work has been done.

Corn.

Number.

17. Farmers planting selected seed corn - - - - -	<u>35</u>
18. Farmers selecting seed corn for next year's crop - - - - -	<u>19</u>
19. Bushels seed corn selected - - - - -	<u>100</u>
20. Farmers testing seed corn for germination - - - - -	<u> </u>
21. Bushels seed corn tested for germination - - - - -	<u> </u>
22. Acres planted with tested seed - - - - -	<u> </u>
23. Other farms on which corn growing was introduced or farm practice relative to corn culture improved - - - - -	<u>37</u>
24. Acres involved in Question 23 - - - - -	<u>400</u>

Wheat, Oats, Barley, and Rye.

25. Farmers treating seed wheat for smut - - - - -	<u>16</u>
26. Bushels seed wheat treated for smut - - - - -	<u>400</u>
27. Acres sown with treated seed - - - - -	<u>250</u>
28. Other farms on which wheat growing was introduced or farm practice relative to wheat culture improved - - - - -	<u>17</u>
29. Acres involved in Question 28 - - - - -	<u>375</u>
30. Farmers treating seed oats for smut - - - - -	<u> </u>
31. Bushels seed oats treated for smut - - - - -	<u> </u>
32. Acres oats sown with treated seed - - - - -	<u> </u>
33. Other farms on which oat growing was introduced or farm practice relative to oat culture improved - - - - -	<u> </u>
34. Acres involved in Question 33 - - - - -	<u> </u>
35. Farms on which barley growing was introduced or farm practice relative to barley culture improved - - - - -	<u> </u>

36. Acres involved in Question 35 - - - - -	<u>100</u>
37. Farms on which rye growing was introduced or farm practice relative to rye culture improved - - - - -	<u>3</u>
38. Acres involved in Question 37 - - - - -	<u>40</u>

Beans and Potatoes.

39. Farms on which bean growing was introduced or farm practice relative to bean culture improved - - - - -	<u>13</u>
40. Acres involved in Question 39 - - - - -	<u>100</u>
41. Farmers treating seed potatoes for disease - - - - -	<u>26</u>
42. Acres involved in Question 41 - - - - -	<u>150</u>
43. Farmers spraying potatoes for disease - - - - -	<u>21</u>
44. Acres involved in Question 43 - - - - -	<u>120</u>
45. Other farms on which potato growing was introduced or farm practice relative to potato culture improved - - - - -	<u>6</u>
46. Acres involved in Question 45 - - - - -	<u>35</u>

Legumes, Other Hay, and Forage.

47. Farms on which alfalfa growing was introduced or farm practice relative to alfalfa culture improved - - - - -	<u>11</u>
48. Acres involved in Question 47 - - - - -	<u>250</u>
49. Farms on which sweet clover growing was introduced or farm practice relative to sweet-clover culture improved - - - - -	<u>3</u>
50. Acres involved in Question 49 - - - - -	<u>50</u>
51. Farms on which red, alsike, or white clover was introduced or farm practice relative to clover culture improved - - - - -	<u> </u>
52. Acres involved in Question 51 - - - - -	<u> </u>
53. Farms on which soy bean growing was introduced or farm practice relative to soy-bean culture improved - - - - -	<u> </u>
54. Acres involved in Question 53 - - - - -	<u> </u>
55. Farms on which sorghum, milo, kafir, or feterita growing was introduced or farm practice relative to their culture improved - - - - -	<u>20</u>
56. Acres involved in Question 55 - - - - -	<u>240</u>

Improved Seed.

57. List in the following table work done in connection with seed improvement:

Crop	Improved seed secured		Improved seed for sale		Names of varieties being standardized
	No. of farms (a)	Bushels (b)	No. of farms (c)	Bushels (d)	
Corn - - -	35	100			Hickory King, Bloody Butcher, Yellow Gent California, Red Pina Papago Sweet
Wheat - - -	17	375			Turkey Red, Early Dart
Oats - - -					
Rye - - - -					
Potatoes -	6	35			Leach, Blow, Bliss, Triumph, Irish Cobbler

Rodent and Insect Pest Control.

	Number.
58. Farms on which rodent-control methods were followed - - - - -	<u>185</u>
59. Acres involved in Question 58 - - - - -	<u>17,575</u>
60. Pounds of poisoned bait involved in Question 58 - - - - -	<u>2500</u>
61. Farms on which insect-control methods were followed - - - - -	<u>36</u>
62. Acres involved in Question 61 - - - - -	<u>290</u>
63. Pounds of poisoned bait involved in Question 61 - - - - -	<u>350</u>

Fruit.

64. Farms on which orchards were planted (apples, peaches, pears, citrus fruits, etc.) - - - - -	<u>24</u>
65. Acres involved in Question 64 - - - - -	<u>60</u>

	Number.
66. Farms on which fruit trees were pruned - - - - -	<u>61</u>
67. Acres involved in Question 66 - - - - -	<u>315</u>
68. Farms on which fruit trees were sprayed - - - - -	<u>55</u>
69. Acres involved in Question 68 - - - - -	<u>285</u>
70. Farms on which bush fruits were planted or farm practice relative to bush-fruit culture improved - - - - -	<u>10</u>
71. Number of acres involved in Question 70 - - - - -	<u>15</u>
72. Boys' and girls' clubs incident to crop production agent assisted in organizing in 1922 - - - - -	<u> </u>
73. Members enrolled in above clubs - - - - -	<u> </u>
74. Members in above clubs completing work - - - - -	<u> </u>
75. List below the organizations or associations relating to crops that the agent assisted in forming in 1922:	

Type of organization	Organized in 1922.	
	Number	Members
Potato growers' associations - - - - -		
Fruit growers' associations - - - - -		
Skull Valley Fruit Growers Association	1	12

Record of Crop Demonstrations* - 1922.

Kind of Demonstrations	Number		Meetings at demonstrations		Units in demonstrations	Increase per acre or other unit	Resultant profit due to increase

		18	57	1371			

State Supplement.

This space is left for each county agent leader to include supplemental questions relating to live stock applicable to his State:

* A demonstration is an effort to show by example the practical application of an established fact. Demonstrations may be of methods or results.

List below any additional work relative to live-stock projects not covered by above questions or in State Supplement:

Five horizontal lines for listing additional work.

Farm-Economics Projects.

In answering the following questions, report only results of the activities of the county agricultural agent that are supported by records. Answer every question. Use figures where work done can be supported by records for current year. Use "Unf." (unfinished) where work is unfinished or no record available; "N. A." (not applicable) where question does not apply; "0" (zero) where no work has been done.

Farm Management.

	Number.
103. Farm account books distributed - - - - -	_____
104. Farmers keeping records in such account books through the year - -	_____
105. Farmers assisted in summarizing and interpreting their accounts -	<u>45</u>
106. Farmers making changes in their business as result of keeping accounts - - - - -	<u>16</u>
107. Other farmers adopting cropping, live-stock, or complete farming systems according to recommendations - - - - -	<u>14</u>
108. Farms on which buildings other than homes were constructed or re- modeled according to plans furnished - - - - -	<u>3</u>
109. Farm leases drawn or modified - - - - -	<u>4</u>
110. Farm Management and farm account schools held - - - - -	<u>10</u>
111. Farmers assisted in keeping cost of production records - - - - -	<u>60 10</u>

Labor.

112. Farm laborers supplied through county extension service - - - - -	<u>50</u>
113. Farmers assisted in securing tractors, sprayers, ditching machines, or other machinery to economize labor - - - - -	<u>16</u>

Credit.

Number.

- 114. Farm Loan Associations agent assisted in organizing - - - - - _____
- 115. Other credit associations agent assisted in organizing - - - - - _____
- 116. Farmers involved in Questions 114 and 115 - - - - - _____

State Supplement.

This space is left for each county agent leader to include supplemental questions relating to farm economics applicable to his State:

List below any additional work relative to farm-economics projects not covered by above questions:

Marketing Projects.

Buying and Selling.

In answering the following questions, report only results of the activities of the county agricultural agent that are supported by records. Answer every question. Use figures where work done can be supported by records for current year. Use "Unf." (unfinished) where work is unfinished or no record available; "N. A." (not applicable) where question does not apply; "0" (zero) where no work has been done.

- 117. In Table I list the cooperative associations which the county agent has helped to form in 1922, and amount of business done:

Table I.

Name of association	Date formed	Number of members	Products handled	Value of: Saving or business profit
<u>Illustrative entry</u>				
Jonesville Fruit Association.	Aug. 1	150	Sell apples and peaches; buy supplies.	\$120,000.00 \$5,295
Ohio Valley Milk Producers Assn.	Aug. 1	25	Sells produce, buys feed and supplies	
Full Valley Fruit Growers Assn.	Aug.	12	"	
Wapakoneta Co. Mahair Growers Assn.	Sept.	35	"	
Turkey Creek Cattle Growers Assn.		17	"	
Sycamore-Cienga Cattle Growers Assn.	Feb.	20	"	

- Number
118. Number of other cooperative associations organized by the agent or his predecessors previous to 1922 with which the county agent has cooperated during the year -----
119. The value of business done by associations included in Question 118 -----
120. Savings or profits made by associations included in Question 119 -----
121. Number of farmers assisted by agent in buying or selling through other channels than cooperative associations ----- 100
122. Value of business done by farmers in connection with Question 121 -----
123. Savings or profits made by farmers in connection with Question 121 -----

Farm Economics and Marketing Demonstrations* - 1921.

Kind of Demonstrations	Number	Meetings at demonstrations		Units in demonstrations	Results.
		Number	Total attendance		
Farm management and farm account schools					
Purchasing and marketing					
List others					

* A demonstration is an effort to show by example the practical application of an established fact. Demonstrations may be of methods or results.

Farm-Home Projects.

In answering the following questions, report only results of the activities of the county agricultural agent that are supported by records. Answer every question. Use figures where work done can be supported by records for current year. Use "Unf." (unfinished) where work is unfinished or no record available; "N.A." (not applicable) where question does not apply; "0" (zero) where no work has been done.

	Number.
124. Water-supply systems planned and installed - - - - -	_____
125. Sewage-disposal systems planned and installed - - - - -	_____
126. Lighting systems planned and installed - - - - -	<u>29</u>
127. Farm homes constructed or remodeled according to plans furnished -	_____
128. Home grounds improved according to plans furnished - - - - -	_____
129. Homes in which labor-saving machinery or equipment were introduced	_____
130. Household laborers supplied through agent or farm bureau - - - - -	_____
131. Homes improving practice relative to gardening - - - - -	_____
132. Boys' and girls' clubs incident to home making and gardening agent assisted in organizing in 1922 - - - - -	_____
133. Members enrolled in above clubs - - - - -	_____
134. Members in above clubs completing work - - - - -	_____

Farm-Home Demonstrations* - 1922.

Kind of Demonstration	Number		Meetings at demonstrations		Units in demonstrations	Results
	Started:	Com- pleted	Num- ber	Total at- tendance		
Clothing - - - - -						
Food preservation - - -						
Home gardens - - - - -						
Home ground improvement						
Hot school lunch - - -						
Home water systems - -						
Labor saving machinery and equipment - - -						
Milkfeeding for increasing weight of children						
Septic tanks - - - - -						
List others - - - - -

List below any other work relative to character and scope of office and field service not covered by above questions:

157. Demonstrations Visited	112

Map of Demonstrations.

On this page draw or attach a map of your county, showing boundaries of communities or other local units recognized by the county extension service, and locate thereon demonstrations listed on pages 5, 11, 14, 17, and 18 of this report. In order to secure uniform mapping in each State, the county agent leader will indicate lines of work after characters. Insert extra maps if it seems desirable.
