- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only placed at the beginning or end of the narrative report.

Statistical Summary.

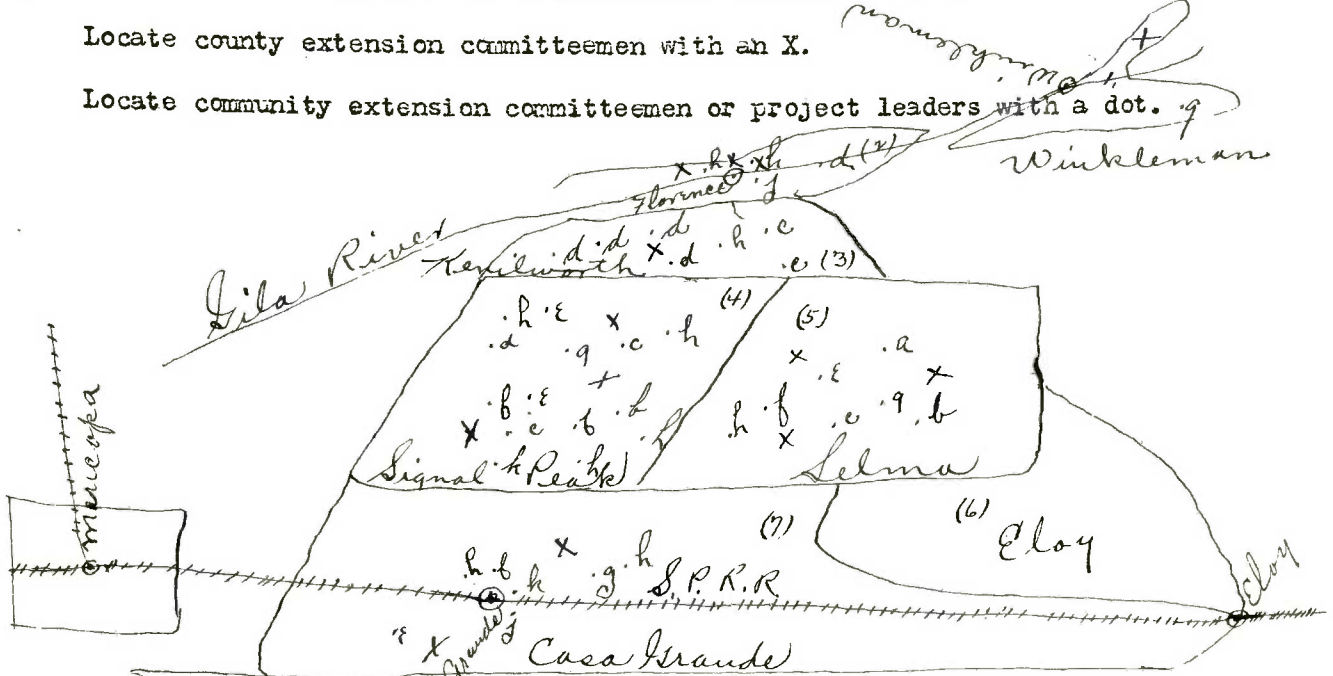

To supplement the narrative part of the report, and in order that comparable State and National summaries can be made, it is necessary that each agent include a statistical summary of the work in his county. The following form has been prepared to insure uniformity in reporting. In addition to the questions asked under each subdivision of the report, space is provided for the State to add other questions of State-wide importance. Additional room is also provided for each county agent to add other important statistical information not covered in the series of National and State questions. For the sake of clearness the questions are arranged in the same order as suggested for the narrative.

Extension Organization Map.

On this page draw or attach a map of your county, showing boundaries of communities or other local units organized for extension work.
