

College of Agriculture and Life Sciences Extension Publications

The Extension Publications collections in the UA Campus Repository are comprised of both current and historical agricultural extension documents from the College of Agriculture and Life Sciences at the University of Arizona.

This item is archived to preserve the historical record. This item may contain outdated information and is not intended to be used as current best practice.

Current extension publications can be found in both the UA Campus Repository, and on the CALS Publications website, <http://cals.arizona.edu/pubs/>

If you have questions about any materials from the College of Agriculture and Life Sciences collections, please contact CALS Publications by sending an email to: pubs@cals.arizona.edu

EXTENSION SERVICE

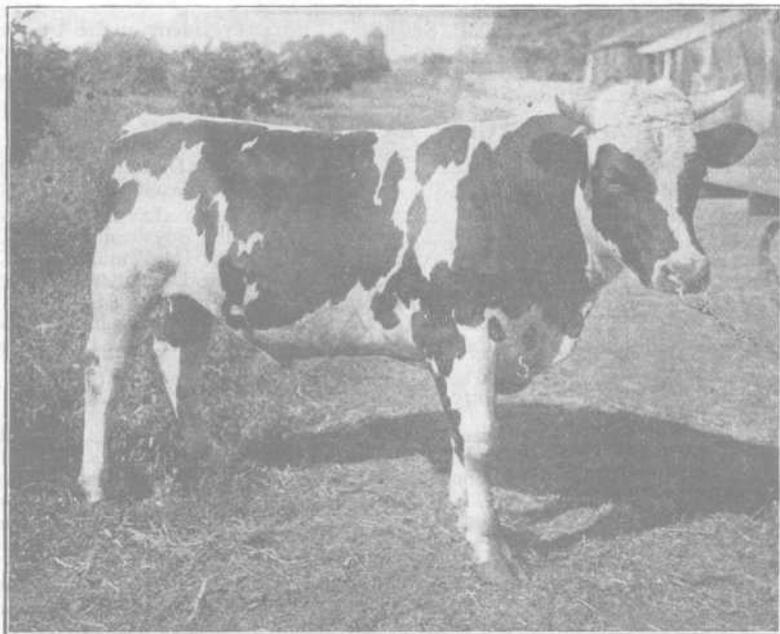

E. P. TAYLOR, Director
TUCSON, ARIZONA

**Breeders of Pure-Bred
Livestock in Arizona**

By

E. P. TAYLOR

Director Agricultural Extension Service

Holstein sire Wolfspring Sethje Mooie Pontiac, sired by Oakland Sethje Mooie and out of Daisy Netherland Pontiac. The nine nearest dams of this young sire average 28 pounds of butter in seven days. The average of his five nearest dams is 30.78 pounds butter in seven days. He is from a sister to Linden Alcartra Polka Dot and carries the blood of Colantha 4th Johanna. Owned by J. C. Rogers, Phoenix.

BOARD OF REGENTS.

Ex-Officio

HIS EXCELLENCY, THOMAS E. CAMPBELL.....Phoenix
Governor of Arizona.

THE HON. CHARLES O. CASE.....Phoenix
Superintendent of Public Instruction.

HESTER L. HUNTER.....Secretary to Director

MARGARET J. REGAN.....Stenographer

*Drafted for military service.

BREEDERS OF PURE BRED LIVESTOCK IN ARIZONA

BY E. P. TAYLOR, *Director Agricultural Extension Service*

Arizona is fast reaching the stage when breeders within the State can supply the necessary pure bred breeding stock to build up and maintain our livestock herds and flocks. There was a time when it was necessary to seek for pure bred without the State, but in most cases highly satisfactory, acclimated and adapted pure bred sires and dams can be bought from Arizona breeders.

The purpose of this circular is to provide a roster of Arizona breeders of pure bred livestock so that persons wishing to get in touch with such breeders may do so, and so that breeders themselves may be brought into closer touch with one another.

The greatly increased cost of feed and livestock production is added argument for the pure blood animal adapted to its specific purpose. There is strong reason at this time for a vigorous culling of inferior animals with a substitution of only the highest producing purebreds. The pure bred sire should be urged even more strongly than before, now that efficient production is being stressed.

In circulating this roster of Arizona breeders of pure bred livestock it is probable that some names have been omitted that should have been given, and some breeders listed may have disposed of their herds since their names were secured. The Extension Service will appreciate notice of corrections that they may be observed in future publications of livestock lists and rosters.

The names of breeders and breeds here listed have been secured very largely through the efforts of Dr. R. H. Williams, Animal Husbandman, University of Arizona, and G. W. Barnes, Livestock Specialist, of the Extension Service of the University.

In publishing this roster the Agricultural Extension Service and those who have collected the data assume no responsibility for the quality of livestock bred or offered for sale by the breeders listed. We believe that in the main, however, Arizona breeders of pure bred livestock are reliable and are attempting to improve the livestock industry, and we wish to aid and stimulate their efforts.
