

College of Agriculture and Life Sciences Extension Publications

The Extension Publications collections in the UA Campus Repository are comprised of both current and historical agricultural extension documents from the College of Agriculture and Life Sciences at the University of Arizona.

This item is archived to preserve the historical record. This item may contain outdated information and is not intended to be used as current best practice.

Current extension publications can be found in both the UA Campus Repository, and on the CALS Publications website, <http://cals.arizona.edu/pubs/>

If you have questions about any materials from the College of Agriculture and Life Sciences collections, please contact CALS Publications by sending an email to: pubs@cals.arizona.edu

P. H. ROSS, DIRECTOR

Coöperative Extension Work in Agriculture and Home Economics, the University of Arizona College of Agriculture, and the United States Department of Agriculture coöperating. Distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914.

BREEDERS OF PUREBRED DAIRY CATTLE IN ARIZONA

By R. N. DAVIS

This circular is to provide a directory of breeders of purebred dairy cattle in Arizona for the convenience of those desiring to purchase purebred cattle for breeding purposes, to bring to the attention of the breeders the importance of their particular breed in the State, and to assist the breeders to find a market for worthy animals.

The value of a directory depends upon its accuracy and completeness. An effort has been made to include every purebred breeder in the State, but owing to failure of some breeders to return the questionnaire which was sent them, and to changes which take place in the list of purebred breeders, it is hardly possible for this publication to be free from errors and omissions.

No recommendation of one breed or breeder above another is indicated in this directory. The prospective purchaser is reminded, however, that some of the best blood lines of the different dairy breeds are represented in the herds of Arizona and these blood lines should be investigated before making purchase. Ordinarily, the dairyman will be able to secure as good breeding animals within the State as he could afford to bring in from the outside, in which case, the Arizona breeders should be favored. A personal inspection should be made before purchasing any animal for breeding purposes.

It is the desire of the Agricultural Extension Service to be of every assistance possible to the dairymen of the State in improving the quality of their herds.

The future of the dairy industry in the State is dependent upon better breeding, feeding, and intelligent culling. It is hoped that this circular will be of value in improving at least the first mentioned essential for successful dairying.

DAIRY BREEDERS' DIRECTORY

AYRSHIRE

Name	Address	No. Females in Herd
Lee Apel	Mesa	
T. B. Armstrong	Phoenix

Following is a list of some of the sires which are either being used at the head of herds in the State at the present time or have recently headed Arizona herds. This list represents some of the best blood of the different breeds. The Agricultural Extension Service will gladly help locate representatives of any particular breeding for prospective purchasers.
