UNIVERSITY EXTENSION DIVISION

PURPOSE AND AIMS

The purpose of the University Extension Division is to make available, as largely as possible, to every community and every individual in the state the advantages of general equipment, educational training, and specialized information represented on the University campus.

ORGANIZATION FOR SERVICE

DEPARTMENT OF EXTENSION INSTRUCTION

BUREAU OF CORRESPONDENCE COURSES

For the convenience of those who are unable to attend the University, a well-rounded curriculum is offered at a nominal fee in selected subjects carrying regular college credit. Approximately one half of the requirements for the bachelor’s degree may be met through correspondence or extension-class courses. Teacher recertification requirements may also be met through such courses.

BUREAU OF EXTENSION CLASSES

Local extension classes are organized under the direction of the University Extension Division in some of the larger communities of the state. A request from ten or more prospective students will usually be deemed sufficient for considering the organization of a class in a selected subject carrying regular college credit. A nominal registration fee is charged for all courses.

DEPARTMENT OF PUBLIC SERVICE

BUREAU OF DRAMATICS

Advice and help are offered in organizing dramatic clubs, and in the solution of specific problems of any nature encountered in choosing and staging plays. A loan library of current plays, drama literature, and readings is available. All plays and books are lent for a period of two weeks. Borrowers pay the parcel post charges on all shipments of materials.

BUREAU OF LECTURE AND LYCEUM SERVICE

Lecturers can be secured for commencements or other special occasions. Speakers can also be provided for educational lectures or lecture courses. This service is free, but the organization receiving this service is asked to meet the lecturer's traveling and subsistence expenses. University talent, as represented in lectures, readings, music, dramatics, and related arts, will be introduced to interested communities of the state as often as opportunity permits.
BUREAU OF LIBRARY EXTENSION

Library packages, made up of materials bearing upon vital current topics, are available. These packages consist of books, pamphlets, and newspaper and magazine clippings; they are lent for periods of two weeks. Reading guides are available covering a wide range of the world's best literature, biography, and history, as well as trades, industries, and sciences. These guides have been prepared by the United States Bureau of Education and the American Library Association. They are designed for the benefit of persons who, without thought of college credit, desire to pursue reading along definite lines. A nominal fee will be charged for the pamphlets. This service is conducted in co-operation with the University Library.

BUREAU OF PUBLICATIONS

All University catalogues, bulletins, and pamphlets are edited and published by the Bureau.

BUREAU OF VISUAL EDUCATION

Moving pictures (16 mm. silent and sound), stereopticon slides, and film slides are available to anyone equipped with suitable projectors upon payment of a nominal rental or service charge. Exhibitors pay the parcel post charges on all shipments of pictures.

PRESS BUREAU

Timely items of special interest concerning the University as well as authentic information and data are disseminated regularly to the press.
CORRESPONDENCE COURSES

Although the direct or residence method of instruction is superior in some respects, the correspondence method presents a number of advantages which makes it particularly suited to the needs of the serious student who is actively interested in the mastery of his studies.

Some of the more apparent advantages of correspondence instruction are: a correspondence course may be begun at any time and completed without interruption as rapidly or as slowly as desired; the student may concentrate upon one course at a time; he is unhampered by limitations of time in studying or reciting, or by the rate of a class through the course. Every part of each assignment is covered thoroughly, individual attention being given to each student, which insures the mastery of the course. The recitations take written form, giving training in logical thinking and arrangement of data, and developing the student’s ability of expression. Writing the recitations helps the student to remember the significant points of the course, and the written assignments give it permanent form, easily accessible for future reference. Moreover, correspondence study, seriously undertaken, develops in a marked degree the student’s initiative, self-reliance, accuracy, and above all, his perseverance.

GENERAL INFORMATION

Correspondence courses do not offer a short cut; they are organized to coincide as closely as possible with the corresponding courses offered in residence at the University and are usually given by instructors having charge of similar residence courses. The chief merit of such courses is that they offer the isolated student, teacher, housewife, and businessman the opportunity of advantageously using spare hours at home in pursuing studies for college credit under University tutelage.

A correspondence course is presented in a number of assignments, ordinarily fifteen assignments for a 2-unit course and twenty for a 3-unit course. Approximately six hours of preparation are expected on each assignment, since an assignment represents approximately a week’s work in residence.

Each assignment contains full directions for study, including references to the texts, necessary suggestions or assistance, and questions to be answered by the student.

Upon the satisfactory completion of a correspondence course, including a final examination, college credit will be granted. (A semester hour of credit represents one class period per week for a semester of seventeen weeks, two hours of preparation being expected for each recitation.) Credit earned through correspondence in any of the courses listed in this bulletin may be presented in partial or complete fulfillment of the requirements for the granting or renewal of teaching certificates in Arizona. Correspondence credits in education courses which are starred are accepted in partial fulfillment of the requirements for the Administrative Certificate. Credit in the correspondence course, National and State Constitutions, is accepted by the State Board of Education in fulfillment of the law requiring each teacher to pass an examination in this subject.
From time to time, as demand warrants, new correspondence courses will be added to the list offered. It is advisable for students to request the Extension Division to offer new courses especially desired, since a real demand must be evinced for a course before it will be regularly offered in the correspondence schedule.

REGULATIONS

Correspondence courses may be begun at any time and may be completed as rapidly as the character of the work will permit. Students are allowed a maximum of twelve months from date of registration to complete the work for which they have registered. If work is not completed within the allotted time, a time extension may be gained through the payment of a nominal fee for each course.

No preliminary examinations or general prerequisites are required for registration in correspondence courses except in certain advanced courses. Credit will not be granted in those courses requiring prerequisites unless satisfactory evidence is presented that such prerequisites have been fully met. If the correspondence student should later matriculate at the University he must, of course, comply with the requirements for admission to residence courses.

Students may register for as many courses at a time as they feel they can pursue with profit; ordinarily, however, it is better to register for and complete one course at a time.

Correspondence courses may not be undertaken by a student while in regular attendance at an institution of learning without the knowledge and written consent of the authorities of such institution. Students taking residence work at the University of Arizona may not register for correspondence courses without the written permission of the Registrar. Such permission must accompany the application for correspondence instruction before registration will be accepted.

Students who are under suspension from the University of Arizona for any reason whatever may not register for correspondence courses until the period of suspension is over.

A final examination must be passed satisfactorily in each course before credit is awarded; this examination may be taken either at the University or in the student's home town under conditions approved by the University Extension Division.

A maximum of sixty semester hours of credit earned through correspondence courses may be applied toward a bachelor's degree; but the Extension Division does not necessarily undertake to furnish that number of suitable units to each applicant.

The University Extension Division reserves the right to reject any registration if it feels that the best interests of the student or of the Extension Division will not be served through such registration.

REGISTRATION PROCEDURE

The prospective student should detach the "Application for Instruction" blank on the third page of this bulletin and give fully the information requested. (Additional application blanks may be secured at any time by writing to the University Extension Division.)
Desired correspondence courses should be clearly listed; the application should then be mailed to the University Extension Division with the required fee to cover registration.

If the registration is rejected, the fee will be returned, and the student notified. If it is accepted, a receipt and the first few assignments of the course will be sent to the student, remaining assignments being sent as needed.

In case of a change in the mailing address of a student, the Extension Division should be notified immediately so that assignments may be returned to the student promptly.

FEES

Registration fees for correspondence courses are arranged on the basis of the number of units (semester hours) in a given course at a rate of $5 per unit. Thus a 2-unit course requires a registration fee of $10 while a 3-unit course requires $15.

In case work is not completed within twelve months of the time of registration, a time extension of twelve months from date of registration expiration may be secured through the payment of a "time extension" fee of $2 for each course. This time extension privilege may be exercised only within six months from date of expiration of the original registration.

A fee of $2 will be charged for changing an enrollment from one course to another. Changes in enrollment may be made only within six months from date of original registration and provided no work has been done by the student on the original course. Should a student receive a failing grade on the final examination and be granted the privilege of taking a second, a fee of $2 will be charged for the accommodation. The second examination must be taken before the expiration of the original registration.

Fees will ordinarily not be refunded because of a student's inability or unwillingness to pursue a course which he has begun. If no work has been done on a course and the student wishes to withdraw his registration, all fees will be refunded with the exception of a sum of $2 to cover registration costs. Such refund of fees will be made only if the registration is withdrawn within six months from date of original registration.

TEXTS AND SUPPLIES

Students are expected to purchase their own texts and supplies. These should be ordered directly from the Co-operative Book Store, University of Arizona, Tucson, and will be supplied through C.O.D. parcel post. Prices of texts and supplies quoted in this bulletin are F.O.B., Tucson; parcel post charges on all shipments of texts and supplies are to be paid by the students.

To secure uniformity in submitted assignments and to save postage, a light paper has been adopted, 8½ by 11 inches in size, especially adapted for correspondence manuscripts. A notebook accommodating this paper has also been adopted. Orders for this notebook and paper will be filled by the Co-operative Book Store through C.O.D. parcel post at the following prices: paper, ninety sheets, plain, 50c; notebook, cardboard, $1; notebook, leatherette, $1.60.

Supplementary texts for parallel reading or reference in assignments may often be borrowed by writing directly to the University Library, University of Arizona, Tucson.

ECONOMICS

1a-C. Introduction to Economics I. (3 units) E. J. Brown
The fundamental structure and principles which underlie economic and business life. The texts used have been revised and include a discussion of recently enacted legislation. Some of the topics considered are: value and price, monopolies, distribution, rent, interest, profits, wages, money and banking, attempts at price stabilization, and recent monetary developments. (Twenty assignments. Registration fee, $15.)

1b-C. Introduction to Economics II. (3 units) E. J. Brown
This is a continuation of Introduction to Economics I. Questions considered include taxation, industrial organization, the N.R.A., the business cycle, inter-regional trade and exchange, problems of labor, and plans of social reform such as profit sharing, single tax, co-operation, and socialism. (Twenty assignments. Registration fee, $15.)

EDUCATION

101-C. Modern Education. (3 units) J. W. Clarson, Jr.
Representative features of public education in America; its organization, its administration, its policies, and its techniques. Planned to meet the needs of prospective teachers, of teachers in service seeking professional advancement and a renewed acquaintance with modern education, and of nonteachers who want a general overview of the educational system. (Twenty assignments. Registration fee, $15.)

Text: An Introduction to Education and the Teaching Process, by Adams and Taylor, Macmillan Co. ($2.75).

106-C.* Comparative Education. (3 units) J. W. Clarson, Jr.
Comparative study of the organization, administration, scope, curricula, and purposes of the principal national school systems, interpreted in the light of national character and national purpose. Six leading nations will be considered—England, France, Germany, Italy, Russia, and the United States. (Twenty assignments. Registration fee, $15.)

108-C. Rural Education. (3 units) J. W. Clarson, Jr.
This course offers help in understanding and solving the problems of rural education. Intended primarily for rural teachers, it should prove valuable also to rural principals and supervisors, county superintendents, and all others interested in the promotion of effective rural education. The course includes a basic study of those factors that have made rural life and education what they are today. On this as a basis the course points out how the teacher and the school can best meet the needs of present rural communities. The course throughout is concrete and practical. (Twenty assignments. Registration fee, $15.)

Texts: The Rural Community and Its Schools, by Lewis, American Book Co. ($2.50); Everyday Problems of the Country Teacher (Revised Edition), by Lowth, Macmillan Co. ($2.25); Arizona School Law (supplied by the State Department of Education, Phoenix, Arizona).

109-C.* Vocational Education. (2 units) R. W. Cline
This course offers assistance in the understanding of the theory and practices of vocational education. Problems of vocations are considered from the standpoint of the individual, of the group of individuals organized for a particular purpose, and of economic society as a whole. Consideration is given to purpose, content, methods of teaching, and school organization, with a view to proposing a unified program of vocational education. (Fifteen assignments. Registration fee, $10.)

Texts: Education and Vocations, by Eaton, John Wiley and Sons, Inc. ($2.50); Vocational Education in a Democracy, by Prosser and Allen, Century Co. ($2.75).

*Starred courses may be applied toward the requirements for the Administrative Certificate.
