## STUDENT EMPLOYMENT

Every effort is made by the University Placement Service to assist worthy students in finding employment, and in the past few years practically all students who sought part-time employment were able to secure it. Preference is given to students from Arizona. More than 50 percent of all students are employed part-time during at least one portion of the year or another.

Various positions, about the grounds, buildings, and laboratories of the University as well as in the city, paying from \$10 to \$50 a month, are filled by students. All new students are urged, however, to come prepared to meet their initial expenses and to meet in full their expenses for at least one semester.

Every effort is made to assist foreign students who seek part-time employment but it should be pointed out that it is somewhat more difficult to accommodate them, due to the lack of familiarity with certain U.S. work situations, and occasionally, due to government regulations.

Applicants for employment should consult the Director of the Placement Service.

## UNIVERSITY PLACEMENT SERVICE

The University of Arizona maintains a placement service for the purpose of helping employers find well-prepared and efficient workers. The University is interested in helping graduates of The University of Arizona and other qualified persons to get in touch with prospective employers and to make available to them the record of persons enrolled in the University Placement Service. All graduates and former students of the University are eligible for enrollment. Persons now engaged in teaching or in school administration in Arizona are also eligible. Teachers enrolling for the first time are charged an enrollment fee of \$2; other details with respect to methods of operations and cost may be obtained by writing to the director of placement service.
