UNIVERSITY EXTENSION DIVISION

PURPOSE AND AIMS

The purpose of the University Extension Division is to make available, as largely as possible, to every community and every individual in the state the advantages of general equipment, educational training, and specialized information represented on the University campus.

ORGANIZATION FOR SERVICE

CORRESPONDENCE COURSE BUREAU

For the convenience of those who are unable to attend the University, a well-rounded curriculum is offered at a nominal fee in selected subjects carrying college credit. Approximately one half of the requirements for the bachelor's degree may be met through correspondence or extension-class courses. Teacher recertification requirements may also be met through such courses.

DRAMATICS BUREAU

Advice and help are offered in organizing dramatic clubs, and in the solution of specific problems of any nature encountered in choosing and staging plays. A loan library of current plays, drama literature, and readings is available. All plays and books are lent for a period of 2 weeks. Borrowers pay the parcel post charges on all shipments of materials.

EXTENSION CLASS BUREAU

Local extension classes are organized under the direction of the University Extension Division in some of the larger communities of the state. A request from ten or more prospective students will usually be deemed sufficient for considering the organization of a class in a selected subject carrying regular college credit. A nominal registration fee is charged for all courses.

LECTURE AND LYCEUM BUREAU

Lecturers can be secured for commencements or other special occasions. Speakers can also be provided for educational lectures or lecture courses. This service is free, but the organization receiving this service is asked to meet the lecturer's traveling and subsistence expenses. University talent, as represented in lectures, readings, music, dramatics, and related arts will be introduced to interested communities of the state as often as opportunity permits.
**Library Extension Bureau**

In co-operation with the University Library, books covering a wide range of subjects are available for loan, for a 4-week period, to any citizen of Arizona. While the Library is not in a position to plan informal programs of study, or to prepare reading lists, it does have on file a fairly extensive number of bibliographies and reading courses prepared by the American Library Association and the United States Office of Education. By the use of these lists, available on loan, it is possible to pursue consecutive and integrated reading, with no thought of college credit, in a variety of subject fields. There is no charge for this service other than the small cost of transportation, both ways, for borrowed materials. Requests for books should be addressed to the University Library direct.

**Press Bureau**

Timely items of special interest concerning the University as well as authentic information and data are disseminated regularly to the press.

**Publications Bureau**

All University catalogues, bulletins, and pamphlets are edited and published by the Bureau.

**Radio Bureau**

The extent and kind of radio work is based largely on principles advanced by the Federal Bureau of Radio Education and many universities experienced in broadcasting. Programs originating in the University studio are transmitted by commercial networks of the state as a public service.

**Visual Aids Bureau**

Moving pictures (16 mm. silent and sound-on-film), stereopticon slides, and film slides are available to anyone equipped with suitable projectors upon payment of a nominal rental or service charge. Exhibitors pay the parcel post charges on all shipments of pictures.
INTRODUCTION

Though the direct or residence method of instruction is superior in some respects, the correspondence method presents a number of intages which makes it particularly suited to the needs of the student who is actively interested in the mastery of his studies. Some of the more apparent advantages of correspondence instruction are: a correspondence course may be begun at any time and completed without interruption as rapidly or as slowly as desired; the student may concentrate upon one course at a time; he is unpered by limitations of time in studying or reciting, or by the of a class through the course. Every part of each assignment is red thoroughly, individual attention being given to each student, h insures the mastery of the course. The recitations take written giving training in logical thinking and arrangement of data, and oping the student's ability of expression. Writing the recitations s the student to remember the significant points of the course, and written assignments give it permanent form, easily accessible future reference. Moreover, correspondence study, seriously ngened, develops in a marked degree the student's initiative, self- ence, accuracy, and above all, his perseverance.

GENERAL INFORMATION

Correspondence courses do not offer a short cut; they are organ- to coincide as closely as possible with the corresponding courses ed in residence at the University and are usually given by in- tors having charge of similar residence courses. The chief t of such courses is that they offer the isolated student, teacher, ewife, and businessman the opportunity of advantageously using e hours at home in pursuing studies for college credit under y University tutelage.

correspondence course is presented in a number of assignments, rarily fifteen assignments for a 2-unit course and twenty for a it course. Approximately 6 hours of preparation are expected on assignment, since an assignment represents approximately a's work in residence.

each assignment contains full directions for study, including refer- s to the texts, necessary suggestions or assistance, and questions : answered by the student.

on the satisfactory completion of a correspondence course, in- ing a final examination, college credit will be granted. (A sem- hour of credit represents one class period per week for a sem- of 17 weeks, 2 hours of preparation being expected for each ation.)
edit earned through correspondence in any of the courses listed his bulletin may be presented in partial or complete fulfillment e requirements for the granting or renewal of teaching certi- es in Arizona. Correspondence credits in education courses h are starred are accepted in partial fulfillment of the require- ts for the Administrative Certificate. Credit in the correspondence se, National and State Constitutions, is accepted by the State d of Education in fulfillment of the law requiring each teacher to an examination in this subject.
m time to time, as demand warrants, new correspondence ses will be added to the list offered. It is advisable for students quest the Extension Division to offer new courses especially de-
sired, since a real demand must be evinced for a course before it will be regularly offered in the correspondence schedule.

REGULATIONS

Correspondence courses may be begun at any time and may be completed as rapidly as the character of the work will permit. Students are allowed a maximum of 12 months from date of registration to complete the work for which they have registered. If work is not completed within the allotted time, a time extension may be gained through the payment of a nominal fee for each course.

No preliminary examinations or general prerequisites are required for registration in correspondence courses except in certain advanced courses. Credit will not be granted in those courses requiring prerequisites unless satisfactory evidence is presented that such prerequisites have been fully met. If the correspondence student should later matriculate at the University he must, of course, comply with the requirements for admission to residence courses.

Students may register for as many courses at a time as they feel they can pursue with profit; ordinarily, however, it is better to register for and complete one course at a time.

Correspondence courses may not be undertaken by a student while in regular attendance at an institution of learning without the knowledge and written consent of the authorities of such institution. Students taking residence work at the University of Arizona may not register for correspondence courses without the approval of the dean of his college. Requests for this approval are submitted on the Change of Study Lists form obtained at the Registrar's office. Such permission must accompany the application for correspondence instruction before registration will be accepted.

Students who are under suspension from the University of Arizona for any reason whatever may register for correspondence courses only upon approval of the dean of the college in which they have previously registered.

A final examination must be passed satisfactorily in each course before credit is awarded; this examination may be taken either at the University or in the student's home town under conditions approved by the University Extension Division.

A maximum of 60 semester hours of credit earned through correspondence courses may be applied toward a bachelor's degree; but the Extension Division does not necessarily undertake to furnish that number of suitable units to each applicant.

Credit earned through correspondence is not acceptable as prelegal credit for admission to the College of Law. Correspondence courses will not be accepted for graduate credit.

The University Extension Division reserves the right to reject any registration if it feels that the best interests of the student or of the Extension Division will not be served through such registration.

REGISTRATION PROCEDURE

The prospective student should detach the "Application for Instruction" blank on the third page of this bulletin and give fully the information requested. (Additional application blanks may be secured at any time by writing to the University Extension Division.) Desired correspondence courses should be clearly listed; the application should then be mailed to the University Extension Division with the required fee to cover registration.
If the registration is rejected, the fee will be returned, and the student notified. If it is accepted a receipt and the first few assignments of the course will be sent to the student, remaining assignments being sent as needed.

In case of a change in the mailing address of a student, the Extension Division should be notified immediately so that assignments may be returned to the student promptly.

FEES

Registration fees for correspondence courses are arranged on the basis of the number of units (semester hours) in a given course at a rate of $5 per unit. Thus a 2-unit course requires a registration fee of $10 while a 3-unit course requires $15.

In case work is not completed within 12 months of the time of registration, a time extension of 12 months from date of registration expiration may be secured through the payment of a "time extension" fee of $2 for each course. This time extension privilege may be exercised only within 6 months after date of expiration of the original registration.

A fee of $2 will be charged for changing an enrollment from one course to another. Changes in enrollment may be made only within 6 months after date of original registration and provided no work has been done by the student on the original course. Should a student receive a failing grade on the final examination and be granted the privilege of taking a second, a fee of $2 will be charged for the accommodation. The second examination must be taken before the expiration of the original registration.

Fees will ordinarily not be refunded because of a student's inability or unwillingness to pursue a course which he has begun. If no work has been done on a course and the student wishes to withdraw his registration, all fees will be refunded with the exception of a sum of $2 to cover registration costs. Such refund of fees will be made only if the registration is withdrawn within 6 months after date of original registration.

TEXTS AND SUPPLIES

Students are expected to purchase their own texts and supplies. These should be ordered directly from the Co-operative Book Store, University of Arizona, Tucson, and will be supplied through C.O.D. parcel post. Prices of texts and supplies quoted in this bulletin are F.O.B., Tucson; parcel post charges on all shipments of texts and supplies are to be paid by the students.

To secure uniformity in submitted assignments and to save postage, a light paper has been adopted 8½ by 11 inches in size, especially adapted for correspondence manuscripts. A notebook accommodating this paper has also been adopted. Orders for this notebook and paper will be filled by the Co-operative Book Store through C.O.D. parcel post at the following prices: paper, ninety sheets, plain, 50c; notebook, canvas, $1; notebook, luggage cloth, $1.35.

Supplementary texts for parallel reading or reference in assignments may often be borrowed by writing directly to the University Library, University of Arizona, Tucson.
