

Science Objective Summary

- Dust Plume Observations with PolyCam (9/11/18) & MapCam (9/12/18)

-Search for dust and gas plumes originating from the asteroid surface, and characterize their source regions and column densities.

- REXIS Cover Open (9/14/18)

-Opening the cover is necessary for REXIS to be able to observe Bennu and will be achieved by actuating the Frangibolt holding the cover closed.
