

Acknowledgments

The authors would like to recognize the Editor of Rangelands, Lori Hiding and the sponsors of this special issue. Without their support this issue would not have been possible.

U.S. Department of Agriculture, Sitting Bull Tribal College, North Dakota State University and South Dakota State University are equal opportunity/affirmative action employers and all agency, college and university services are available without discrimination.

**United States
Department of
Agriculture** **National Institute
of Food and
Agriculture**

The USDA National Institute of Food and Agriculture’s mission is to invest in and advance agricultural research, education, and extension to solve societal challenges.

**United States
Department of
Agriculture** **Agricultural
Research
Service**

The USDA-ARS Northern Great Plains Research Laboratory’s mission is to develop adaptive and integrative practices for sustainable crop, livestock and rangeland systems.

Guided by Lakota/Dakota culture, values and language, Sitting Bull College is committed to building intellectual capital through academic, career and technical education, and promoting economic and social development.

**HETTINGER
RESEARCH EXTENSION CENTER**

The North Dakota State University Hettinger Research Extension Center serves the people of North Dakota by conducting applied research and education in agriculture and environmental science that enriches lives and supports economic development.

North Dakota Agricultural Experiment Station – For the land and its people.

The mission of the South Dakota Agricultural Experiment Station at SDSU is to find solutions to current problems, as well as opportunities for tomorrow.

SDSU Extension is the indispensable outreach link to people growing South Dakota’s, and the nation’s, future by providing solutions and creating opportunities. We foster learning communities that empower citizens to advocate for sustainable change and strengthen agriculture, natural resources, youth, families and communities.
