Our 1951 Student Issue

LAST year, the October number of the Journal featured an editorial and several other items that marked the beginning of an annual Student Issue. This year, with more time to prepare, much more material about students and teaching is included in this September number, which is dedicated to range students—to our future. The prize winning essay of the 1950 contest is the lead article. In addition, Dr. Harold F. Heady generously agreed to solicit, assemble, and edit material from the range schools. As a result, this issue contains

several articles of especial interest to students and a new section "Range Student Roundup, 1950-1951," which describes many of the field trips and other activities of students during the school year. We have not one, but two student editorials. Furthermore, Dr. Heady's correspondence and surveys in bringing this range student material together, uncovered many points of interest concerning the teaching of range management, which he has written up as still a third editorial.—*R.
