

NOTICE TO CONTRIBUTORS TO THE PROCEEDINGS OF THE 11th INTERNATIONAL RADIOCARBON CONFERENCE

The editors of RADIOCARBON announce the publication of the Proceedings of the 11th International Radiocarbon Conference to be held in Seattle, Washington, June 20-26, 1982. The Proceedings will appear in one of the three regular numbers of Volume 25, 1983, and will be offered as part of the subscription for that year.

Rising inflationary costs and cutbacks in government funding for scientific research have seriously affected our plans for publication. We are forced to impose stringent rules on our contributors, and hope they will understand our limitations.

Presentation of a paper at the Conference will not guarantee publication in the Proceedings issue. If a paper is accepted but will not fit into the Proceedings, it will be considered for publication in one of RADIOCARBON's regular issues. *Only those manuscripts submitted in proper form (in three typewritten copies) at the Conference will be considered for publication.* Articles may not exceed 10 pages including references, illustrations, and tables. No more than four illustrations per paper are recommended, reducible to no more than two pages. Figures should be reduced as much as possible. Preference will be given to shorter articles. No discussions will be published.

The normal review system will be employed. Style guidelines follow the previous Proceeding issues (Volume 22, Nos. 2 & 3, 1980) or the Instructions to Contributors in each issue of RADIOCARBON.

Because we will be using the photo-offset method of printing for this issue, the author will receive detailed instructions, after review of the paper, as well as standardized sheets for the preparation of final copies. If the author prefers, RADIOCARBON will prepare the final text for a reasonable fee, payable in advance.

Each institution sponsoring research reported in an article will be asked to pay a charge of \$80.00 per printed page. Institutions paying such charges will be entitled to 100 free reprints without covers.

We look forward to this project and our renewed associations.

THE EDITORS OF RADIOCARBON
