QUATERNARY SCIENCE REVIEWS

THE INTERNATIONAL MULTIDISCIPLINARY RESEARCH AND REVIEW JOURNAL

Editor-in-Chief: **DAVID Q BOWEN**, *Institute of Earth Studies, UCW, University of Wales, Penglais Campus, Aberystwyth SY23 3DB, UK*

Regional Editor (North America): **BILL FARRAND**, *University of Michigan, Department of Geology & Mineralogy, Ann Arbor, MI 48109, USA*

Associate Editor: **JIM ROSE**, *Department of Geography, Royal Holloway & Bedford New College, University of London, Egham, Surrey, TW20 0EX, UK*

Quaternary Science Reviews caters for all aspects of Quaternary science, and includes, for example, geology, geomorphology, geography, archaeology, soil science, palaeobotany, palaeontology, palaeoclimatology and the full range of applicable dating methods.

The dividing line between what constitutes the review paper and one which contains new original data is not easy to establish, so *QSR* also publishes papers with new data especially if these perform a review function, or can be so adapted for a wider perspective, for example, as in methods of dating.

All the Quaternary sciences are changing rapidly and subject to re-evaluation as the pace of discovery quickens; thus the eclectic and comprehensive role of *Quaternary Science Reviews* keeps readers abreast of the wider issues relating to new developments in the field.

A Selection of Papers
