Please be aware that the MRC project attempts to define these terms and provide context, but the definitions are not comprehensive and may not fully capture the experiences of marginalized groups. We acknowledge that the content in these documents reflects a complex history and ongoing systems of oppression, and we encourage users to engage with the information critically and with sensitivity to the experiences of historically marginalized people. ### **ABOUT THE PROJECT**

*The MRC project tells the story of racist covenants in Tucson. Launched in September 2022, the MRC project explores the geography of racial covenants across Tucson neighborhoods and subdivisions, focusing on those enacted between 1912-1968. Racial covenants were ultimately ruled illegal with the passage of the Fair Housing Act of 1968. Our analysis shows that at least 150 subdivisions across the Tucson metropolitan area have racist CCRs that exclude people of color, as well as other marginalized individuals from living in certain neighborhoods.*

- (1) No lot shall be used except for residential purposes. No building shall be erected, altered, placed or permitted to remain on any lot other than one detached single family dwelling, not to exceed two and one-half stories in height, and a private garage for not more than three cars.
- (2) No derrick or other structure designed for use in boring for water, oil or natural gas shall be erected, placed or permitted upon any part of said property, nor shall any water, oil, natural gas, petroleum, asphaltum or hydrocarbon products or substances be produced or extracted therefrom, except as specifically required by a water company having franchise rights thereon. No antennas or towers for transmission of radio signals shall be placed or permitted on any part of the said property.

(3) No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period.

(4) No temporary house, trailer, tent, garage, or other outbuilding shall be placed or erected upon any part of said property, and no residence placed or erected on any part of said property shall be occupied in any manner at any time prior to its being fully completed; provided, however, that during the actual construction or alteration of a building on any lot, necessary temporary buildings for the storage of material, etc., may be erected and maintained by the person doing such work.

No travel trailer, camper trailer, or house trailer shall be stored or permitted on the property for a period exceeding 72 hours, unless enclosed in such a manner that it is not visible from adjoining lots.

Any building erected shall be of good quality construction and good architectural design, the general appearance, color and finish shall be appropriate, and not detrimental, to a good residential district.

No building may be erected until the plans and specifications therefor have been approved by the undersigned or their successors in interest. If no action has been taken on said plans and specifications by the undersigned, or their successors in interest, within thirty (30) days after submittal thereof, this failure to act may be construed as approval.

The work of construction of any building on any part of said property shall be prosecuted diligently from the commencement thereof until the completion thereof.

(5) No horses, cattle, sheep, goats, hogs, rabbits, pigeons, poultry or other livestock shall be kept or maintained upon any part of said property. This paragraph shall not be construed, however, as prohibiting the keeping of ordinary domestic pet animals upon said property, provided that they are not kept, bred, or maintained for any commercial purpose.

(6) No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste shall not be kept except in sanitary containers. All incinerators or other equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition. Vehicles which are so damaged or dis-assembled that they are not fit for use on public streets and highways shall not be stored or kept on said property for a period exceeding 72 hours.

(7) No building of any nature shall be removed from without said property to any lot without the written consent of the Owner, its authorized agent or architect.

(8) No building shall be located on any lot, the front walls of which are closer than twenty (20) feet to the front lot line, or nearer than eight (8) feet to any side street

line. No building shall be located nearer than six (6) feet to an interior lot line, except that no interior side yard shall be required for a garage or carport located seventy-five (75) feet or more from the front lot line. No dwelling shall be located nearer than fifteen (15) feet to the rear lot line. For the purposes of this covenant, eaves, steps and unroofed open porches or patios shall not be considered as part of a building, provided however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot. No dwelling shall be erected or placed on any lot having a width of less than sixty (60) feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than Eight Thousand (8,000) square feet.

(9) The ground floor area of the main structure, exclusive of one-story open porches and garages, of any dwelling erected on any lot indicated herein, shall be no less than one thousand (1,000) square feet for a one-story dwelling, nor less than twelve hundred (1,200) square feet for a dwelling of more than one story.

(10) Before the owner of any lot shall commence the construction or alteration of any building, wall, fence, coping or other structure whatsoever on any lot, such owner shall submit to an Architectural Committee consisting of GERHARD MULLER and FLORENCE MARY MULLER, or their successors in interest, two complete sets of plans and specifications for the building, wall, fence, coping, or other structure the erection or alteration of which is desired, and no structure of any kind shall be erected, altered, placed or maintained upon any lot unless and until the plans, elevations and specifications therefor have received the written approval of such Architectural Committee. Such plans shall include a plat plan showing the location on the property in question of the building, wall, fence, coping or other structure proposed to be constructed or altered. The Architectural Committee shall either approve or disapprove said plans and specifications within thirty (30) days from the receipt thereof. One set of said plans and specifications with the Architectural Committee's approval or disapproval noted thereon shall be delivered to the person submitting said plans and specifications to the Architectural Committee, and the other copy thereof shall be retained by the owner. If said Architectural Committee shall fail to approve or disapprove of such plans and specifications in writing within thirty (30) days after the delivery of same to it, and no action has been instituted to enjoin the doing of the proposed work, the provisions of this paragraph shall be deemed waived. The said Architectural Committee shall have the right to disapprove of such plans and specifications submitted to it, as aforesaid, if such plans and specifications are not in accordance with all of the provisions of this Declaration, or if, in the opinion of the Architectural Committee, the design of the proposed building or other structure is not in harmony with the general surrounding of such lot or with adjacent buildings or structures. The decision of such Architectural Committee shall be final. Neither the undersigned nor any agent of the undersigned, nor any architect appointed by the undersigned shall be responsible in any

way for any structural defects in any plans and/or specifications submitted in accordance with the foregoing nor in any building or structure erected in the lots covered by this Declaration until all lots have been sold by the undersigned, then at any time thereafter the owners of said lots sold by the undersigned may organize a committee to supersede the undersigned as to the manner in which the matters covered by this paragraph hereof shall be enforced.

(11) Overhead easements from eight feet skyward for installation and maintenance of utilities are reserved over the rear five feet of each lot. Easements for drainage facilities are reserved as shown on the recorded plat. Within these drainage easements, no structure, planting or other material shall be placed or permitted to remain which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements.

(12) The aforesaid provisions, conditions, restrictions and covenants, and each and all thereof, shall run with the land and continue and remain in full force and effect at all times and against all persons until January 1, 2000, at which time they shall be automatically extended for a period of ten (10) years and thereafter for successive ten year periods, unless on or before the end of one of such extension periods the owners of a majority of the lots in said subdivision shall by written instrument, duly recorded, declare the termination or modification of the same.

(13) All provisions, conditions, restrictions and covenants herein shall be binding on all lots and parcels of real estate and the owners thereof, regardless of the source of title of such owners, and any breach thereof, if continued for a period of thirty (30) days from and after the date that the owner or other property owners shall have notified in writing the owner or lessee in possession of any lot upon which a breach has been committed to refrain from a continuance of such action and to correct such breach, shall warrant the undersigned or other lot owner to apply to any Court of law or equity having jurisdiction thereof for an injunction or other proper relief, and if such relief be granted, the court may in its discretion award to the plaintiff in such action his reasonable expenses in prosecuting such suit, including attorney fees; provided, however, that any violation of the foregoing provisions, conditions, restrictions or covenants shall not defeat or render invalid the lien of any mortgage or deed of trust made in good faith for value as to any portion of said property, but such provisions, conditions, restrictions, and covenants shall be enforceable against any portion of said property acquired by any persons through foreclosure or by deed in lieu of foreclosure for any violation of the provisions, conditions, restrictions, and covenants herein contained occurring after the acquisition of said property through foreclosure or by deed in lieu of foreclosure.

(14) No delay or omission on the part of the owners or owner of any lot or lots in said property in exercising any right, power of remedy herein provided for in the event of any breach of any of the provisions, conditions, restrictions and covenants herein contained shall be construed as a waiver thereof.

or acquiescence therein; and no right of action shall accrue nor shall any action be brought or maintained by anyone whomsoever against the undersigned for or on account of the failure or neglect of the undersigned to exercise any right, power or remedy herein provided for in the event of any such breach of any said provisions, conditions, restrictions or covenants or for imposing herein conditions, provisions, restrictions or covenants which may be unenforceable.

(15) In the event that any one or more of the provisions, conditions, restrictions and covenants herein set forth shall be held by any court of competent jurisdiction to be null and void, all remaining provisions, conditions, restrictions and covenants herein set forth shall continue unimpaired and in full force and effect.

(16) No fence, wall, hedge or shrub planting which obstructs sight lines at elevations between two (2) and six (6) feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points twenty five (25) feet from the intersection of the street lines, or in case of a rounded property corner from the intersection of the street property lines extended. The same sight line limitations shall apply on any lot within ten (10) feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.
