Contents

Landscape-Scale Approach to Quantifying Habitat Credits for A Greater Sage-grouse Habitat Conservation Bank Chad W. LeBeau, M. Dale Strickland, Gregory D. Johnson, Michael S. Frank	149
Understanding Management Decisions of Absentee Landowners: More Than Just Presence-Absence Michael G. Sorice, Kiandra Rajala, Urs P. Kreuter	159
Natural Resource Experience Affects Engagement with Emotionally Primed Presentations of Science Kristen E. Gunther, Ann L. Hild, Stephen L. Bieber	163
Land Use Diversification and Intensification on Elk Winter Range in Greater Yellowstone: Framework and Agenda for Social-Ecological Research Julia Hobson Haggerty, Kathleen Epstein, Michael Stone, Paul C. Cross	171
Vulnerability and Adaptation of Livestock Producers to Climate Variability and Change Vahid Karimi, Ezatollah Karami, Marzieh Keshavarz	175
Can Sheep Control Invasive Forbs Without Compromising Efforts to Restore Native Plants? Eva Masin, Cara R. Nelson, Morgan T. Valliant	185
Does Scale Matter? Variation in Area Use Across Spatiotemporal Scales of Two Sheep Breeds in Two Contrasting Alpine Environments N.H. Jørgensen, G. Steinheim, Ø. Holand	189
Grassland Community Composition Response to Grazing Intensity Under Different Grazing Regimes Chunping Zhang, Quanmin Dong, Hui Chu, Jianjun Shi, Shixiong Li, Yanlong Wang, Xiaoxia Yang	196
Profitable and Sustainable Cattle Grazing Strategies Support Reptiles in Tropical Savanna Rangeland Heather Neilly, Peter O'Reagain, Jeremy Vanderwal, Lin Schwarzkopf	205
Vegetation Response to Juniper Reduction and Grazing Exclusion in Sagebrush-Steppe Habitat in Eastern Oregon Jacob W. Dittel, Dana Sanchez, Lisa M. Ellsworth, Connor N. Morozumi, Ricardo Mata-Gonzalez	213
Precipitation and Nitrogen Deposition Alter Litter Decomposition Dynamics in Semiarid Temperate Steppe in Inner Mongolia, China Zhongqing Yan, Yuchun Qi, Yunshe Dong, Qin Peng, Shufang Guo, Yunlong He, Zhaolin Li	220
Broom snakeweed (<i>Gutierrezia sarothrae</i>) Population Change in Central New Mexico: Implications for Management and Control L. Allen Torell, Kirk C. McDaniel, Joel R. Brown, Gregory L. Torell	228
Woody Plant Encroachment Mitigated Differentially by Fire and Herbicide Rheinhardt Scholtz, John A. Polo, Samuel D. Fuhlendorf, David M. Engle, John R. Weir	239
Wildlife Conservation on the Rangelands of Eastern and Southern Africa: Past, Present, and Future Jerry Holechek, Raul Valdez	245
Relationships Between Landscape Greenness and Condition of Elk, Mule Deer, and Pronghorn in New Mexico Todd Caltrider, Louis C. Bender	259
Beaver Habitat Selection for 24 Yr Since Reintroduction North of Yellowstone National Park Matthew A. Scraftford, Daniel B. Tyers, Duncan T. Patten, Bok F. Sowell	266

Cover Image: A U.S. Forest Service employee handling a beaver in preparation for its transport and release into the Absaroka-Beartooth Wilderness outside Yellowstone National Park. Photo by Dan Tyers.
