Contents

Using the Rosgen Stream Classification System to Aid in Riparian Complex Ecological Site Descriptions Development Miranda A. Meehan, Peter L. O'Brien	729
Badlands, Seed Banks, and Community Disassembly Lora B. Perkins, Kelsey R. Ducheneaux, Gary Hatfield, Scott R. Abella	736
Community Stability Was Maintained by Divergent Mechanisms in Arid Desert Ecosystem Wenliang He, Lilong Wang, Liang Wang, Lizhe An, Shijian Xu	742
Associations Between Oil and Gas Wells and Arthropod and Vegetation Communities in the Southern Plains Cameron A. Duquette, Craig A. Davis, Samuel D. Fuhlendorf, R. Dwayne Elmore	749
Stand Dynamics of Pinyon-Juniper Woodlands After Hazardous Fuels Reduction Treatments in Arizona David W. Huffman, Michael T. Stoddard, Judith D. Springer, Joseph E. Crouse, Andrew J. Sánchez Meador, Sushil Nepal	757
Effect of Aboveground Mass Removal on Toxicity of Geyer's Larkspur, with Important Implications for Grazing Management Kevin E. Jablonski, Paul J. Meiman	768
Differential Species Responses to Aspects of Resistance to Invasion in Two Columbia Plateau—Protected Areas Daniel M. Esposito, Thomas J. Rodhouse, Ricardo Mata-González, Matthew Hovland	773
Bunchgrass Root Abundances and Their Relationship to Resistance and Resilience of Burned Shrub-Steppe Landscape Matthew J. Germino, Matthew R. Fisk, Cara Applestein	783
Forb and Invertebrate Response to Treatments for Greater Sage-grouse in Wyoming Big Sagebrush Kurt T. Smith, Jason R. LeVan, Jeffrey L. Beck	791
Monitoring Northern Bobwhite (<i>Colinus virginianus</i>) Populations in the Rolling Plains of Texas: Parasitic Infection Implications Kelly A. Commons, Kendall R. Blanchard, Matthew Z. Brym, Cassandra Henry, Aravindan Kalyanasundaram, Kalin Skinner, Ronald J. Kendall	796
Cattle Grazing Fails to Control Shrub Encroachment in Mediterranean Landscapes Juan Antonio Calleja, Marta Escolà, João Carvalho, Josep Maria Forcadell, Emmanuel Serrano, Jordi Bartolomé	803
Vegetation Responses to Fixed Stocking Densities in Highly Variable Montane Pastures in the Chinese Altay Chaoyan Lv, Eva Schlecht, Sven Goenster-Jordan, Andreas Buerkert, Ximing Zhang, Karsten Wesche	812
Grazing Abandonment Delays the Effect of Temperature on Aboveground Net Primary Production in Atlantic Grasslands Arantza Aldezabal, Iñaki Odriozola, Gonzalo García-Baquero	822
Rangeland Livestock Production in Relation to Climate and Vegetation Trends in New Mexico Mohammed N. Sawalhah, Jerry L. Holechek, Andres F. Cibils, Hatim M.E. Geli, Ashraf Zaied	832
Simulating Rangeland Ecosystems with G-Range: Model Description and Evaluation at Global and Site Scales Jason Sircely, Richard T. Conant, Randall B. Boone	846
Unmanned Aerial Vehicle—Based Rangeland Monitoring: Examining a Century of Vegetation Changes Temuulen Ts. Sankey, Jackson M. Leonard, Margaret M. Moore	858

Cover Image: Assessing stream channel geomorphology aids in development of Riparian Complex Ecological Site Descriptions. This photo was taken on a perennial stream in western North Dakota. Photo by M. Meehan.
